FAIR BUSINESS THIS MORNING

fluenced by Eastern Situation.

LOCAL CONDITIONS GOOD.

During the Week Transactions Involving 344,305 Shares and 8198,-362 Were Recorded.

Another week's trading on the mining exchange was brought to a close with this morning's session during which a fair business was recorded. The week has not been a satisfactory one so far as trading in Utah mining stocks is concerned. Traders, influenced by the eastern monetary situration, have held aloof and the result has been that the market has been wholly in professional hands.

With few exceptions prices have been tobogganed and manipulated from their natural tendency which, in view of local conditions is undoubtedly towards Ligher figures.

Notable gains in prices were this morning made by Lone Pine of Park City which sold for 32 and Lower Mammoth, which advanced several cents to \$1.30. Wabash was also stronger while Daly-West, Daly-Judge and Callfornia continued weaker. The week closes on the following

Week's Trading Unsatisfactorily In- | Showing is Improving in Drift on Big Fissure.

WORK PROGRESSING FAST.

Lime Contact Will be Encountered Within Thirty Days - Kirby of Daly - West Expects Ore.

The latest advices from Park City indicate that the Wolverine is presenting an interesting and most promising appearance and recent visitors to the property are of the opinion that it will be one of the first of the newer locations to be developed into a mine.

The latest report is to the effect that the drift started on the fissure recently broken into, has been driven 40 feet in stuff carrying fair values and that Mgr. Jeffs expects to reach the lime contact, towards which the drift is being driven, within 30 days or so.

Before reaching that contact it is not Improbable that ore in paying quantities and quality will be encountered and Supt. John A. Kirby of the Daly West states that according to the usual run of ore bodies in the camp, the Wolverine should develop into a very big mine. The owners of the Wolverine are wealthy Michigan people and M. L. Effinger, who promoted the company recently stated that some of the owners will arrive in this city shortly to visit

THE MAJESTIC CROWD. Enthusiastic Over the Property East

ern Stockholders Return. On this morning's train from the south President A. B. Lewis, General Manager Farish and the following eastern stockholders in the Majestlo Mining company returned to the city; Thomas M. Smith, H. G. Howe, W. B. Mucklow, Rev. C. A. Pidaock, Frank H. Bosson and J. M. Dick, Hartford, Conn.; F. J. Reville and Geo. H. Risley, New York; Geo. E. Keith, S. E. Packard, Brockton, Mass; Hon. D. N. Morgan of Bridgeport; M. B. Dunbar, Winstead, Conn.; E. H. Hotchkiss and C. H. Alvord, Torrington, Conn.; Geo. A. H. Alvord, Torrington, Conn.; Geo. A. Graves, New Britain, Conn.

The entire party was enthusiastic over the trip and many of the gentlemen expressed their amazement at the magnitude of the enterprise. Under President Lewis' direction the O. R., Old Hickory, Harrington Hickory, Vicksburg and other Majestic groups were visited as was also the

melter site upon which no fewer than 0 men are now at work. The party was also shown the Horn Cactus, Blackbird and Copper Gulch mines and after three days' activity will commence the journey home ward tonight. However a banonet wi e given at the Knutsford at five this afternoon in honor of the party, who will meet some local men of prom

ORE AND BULLION. Settlements During the Week in This

City Amounted to \$395,800. Settlements for ore and bullion on the open market in this city during the rast week amounted to considerably ees than the total, for the preceding week, As reported by McCornick & Co., this week's settlements totaled \$395,800, as compared with \$429,200, last week The grand total settlements for the past six weeks amount to \$2.278,000. The above totals are exclusive of the bullion forwarded to Perth Amboy refineries from the Highland Boy and Bingham Consolidated smelters. Over \$100 000, in hullion is forwarded by those two com-

Ore and bullion settlements in this city yesterday as reported by McCornick & Co., amounted to \$55,300. DALY-WEST DIVIDEND.

Directors Will Meet on Monday and

Post October Amount. The Daly-West directorate will meet in this city on Monday and post the October dividend in the sum of \$108,000 or 60 cents a share. The books of the ompany will close on the 10th and the With the October distribution the

dividends no less than \$792,000 and a grand total of \$2,043,000.

The great mines of the company in Park City are reported to be in fire on the 15th. The Home Fire paid on the 1st. Other institutions which condition with big quantities of new ore in sight. Shipments continue as arge as ever and a director of the comvery neat sum is being earned in exs being added to the treasury reserve

COLONEL HEFFRON RETURNS. Visited Park City Properties for Two Days.

After two days' touring of the princi-pal mines in Park City and of the properties upon which the newer companies are operating. Col. H. G. Heffren, the well known Bingham Consolidated or buyer, returned last evening.

When seen this morning he stated that he visited all the large properties. They are he ways in magnificent.

ies. They are, he says, in magnificent condition and are steadily pouring out

The colone also visited the Wabash, Keytone, New York, Minola and others of properties upon which devel naments re comparatively commencing. Upon all of them work is being push

ed with energy and apparently with much system and knowledge. much system and knowledge.

The colonel was particularly struck with the Minola, which it's adjoining the Silver King. He believes that that property has the making of a biz mine as probably also have all others named. The hills around Park City are being eagerly prospected and Col. Hef, from believes that other very rich mines will be located and developed in the district within a few years.

COALERS MOST AFFECTED.

When Supporting Orders Made Their Appearance Shorts Covered-Closing Was Active and Easy.

New York, Oct. 4.-The failure of the coal conference in Washington to effect a settlement of the coal strike caused opening prices of stocks to break badly. The coalers were most affected, but their weakness carried the whole list with it. There were some large block? unloaded.

When supporting orders made their appearance the short interest covered and there was a rally reaching a point in St. Paul, Penna, Reading, Louisville und Sugar.

The market became feverish on the rise and large selling was resumed. St Paul and Missouri Pacific were driven a point or more lower than at the opening and the coalers and Pacifics declined again to the opening level or below. Colorado Fuel lost 2. Before the bank statement appeared stocks made an effective raily. St. Paul recovering 2% and other leaders from 1 to 2 points. The decline in the surplus shown by the bank statement threw the market into confusion again and prices melted away lower than before. The level of prices touched was 1 to 3 below last night for the leading active stocks. The market closed active and easy, except for a rew feverish railies on covering by room shorts.

OUTLOOK FOR BUSINESS BRIGHT

Distribution of Merchandise Shows No Diminution.

DEALERS ARE URGENT.

Voluntary Advances of Wages Made In a Number of Industries-Transportation Facilities Improved.

New York, Oct. 3 .- R. G. Dun & Co.'s Weekly Review of Trade tomorrow will say: "The distribution of merchandise shows no diminuition, and prospects are bright for continued activity. Dealers in many lines are urgent for prompt shipments, calling upon jobbers and manufacturers for goods already overdue. Western reports are especially favorable. Voluntary advances in wages have been announced in a number of instances, while the labor situation is more satisfactory. Transportation facilities have improved in the coke region, and rallway earnings exceed for September last year's record by 9.4 per cent. Pig iron furnaces are receiving larger consignments of coke, and there is less interruption because

of the fuel scarcity. "Strictly commercial failures during the first nine months of 1902 in the United States numbered 8,676, with defaulted liabilities of \$85,405,490. Last year there were 8,803 failures for \$80,-560,852. In addition there were forty-seven failures of banks and other financial institutions with liabilities of \$20,277,198, against 61 in 1901, involving \$17,295,554. While the exhibit is less satisfactory than last year's only one other year during the past two decades made as favorable a showing."

Note-Failures for week not reported.

THE LACE HOUSE. FAST FREICHT FOR THE D. & R.C.

New Train to be Put on From Denver to Ogden.

U. P. WILL MEET THE CUT.

Running Time Will be Materially Reduced in Fashion Which Will Bring Joy to Shippers.

Commencing Nov. 1 the Denver & Rio Grande and the Rio Grande Western will put on a fast freight service which will be known as No. 61. This train will leave Denver daily at 6:50 a. m., arriving in Salt Lake at 6:30 a. m. the second morning, and Ogden about two hours later.

In order to meet this innovation the Union Pacific will also make a cut in the running time of its star freight train.

The new train, so Manager Herbert is quoted as saying, will be put through on time daily, just as though it were a mail train. It will be run in connection with the Gould system and also will take up tarloads at connecting points. In this connection the fast through freight on the Burlington, known as No. 77, will be able to put carloads and less than carload consignments into Salt Lake in about five days from Chicago. This train does the run from Chicago to Denver under 50 hours and arrives at 4:20 a. m., which leaves the margin of 2 hours and 10 minutes in which to lo the necessary switching.

Just as soon as this train is put on the Salt Lake merchants will undoubt-edly avail themselves of this boon.

> SELLS COAL FIELDS. Move by Southern Pacific Prior to Utilizing Oil for Fuel.

San Francisco, Oct. 3 .- Within a very lew days a business deal which pro-bably involves millions of dollars will be consummated in Victoria, B. C., be-tween the Pacific Improvement company of San Francisco and Hon, James Dunsmuir, Premier of British Columbia, says the Bulletin today. By this rusiness transaction Mr. Dunsmuir will ake over full control of the Esquimalt areas of Wellington and Ladysmith, which at present supply this city with a large proportion of its coal used.

A. D. Shepard, manager of the Pacific Improvement company, this morning authorized the statement that negotiations for the transfer would be concluded in the immediate future. His

cluded in the immediate future. His company had not been anxious to sel out, he said, but a good offer had been made for its property in British Columtia and this offer had been accepted. He refused positively to state how much the Dunsmuir interests would pay, nor would he give any hint as to his most vital portion of the transac

The Pacific Improvement company is subsidiary to the Southern Pacific company, and the Bulletin surmises that the relinquishment by the railroad of to use oil for fuel in the future.

AGRICULTURAL COLLEGE. Additional Class Room and Enlarged Faculty.

Special Correspondence. Logan, Cache Co., Oct. 2.-The two weeks just past have never had a parallel in the history of the Agricultural College. The number of students this year is almost 50 per cent above some

other years of the past. Conditions were just right for the reception and control of such numbers. The new buildings afforded spacious halls and additional class rooms, and the new arrangements introduced for aid of teachers in enrolling and locating pupils properly, have made the whole proceeding work like a machine and scarcely any time was lost before students were hard at work. also the students have not become discouraged or confused, and express themselves to a unit in praise of the college.
The faculty has been enlarged,

classes cut down and much equipment added to the departments so that every condition now exists to improve on the excellent work done in past years. Each department now has a home by itself and is separately organized into a special school. The old museum, which existed so long as a mere curiosity shop, has been divided among the appropriate departments and made accessible to the contract of the contract proposate departments and made accessible to the classes. Offices have been provided and filled with assistants so that no clerical work is allowed to divert the attention of the professors from their class work. Students have been provided with comfortable boarding places and a domestic organization is being effected that will place them in close touch with the school authori-ties. Old students returned speak in the highest praise of the improvements and the newcomers exclaim. "The half was not told me." The new library occupies the entire

second floor of the front addition. It is probably the finest in the west. Light enters it from three sides and the most modern steel racks hold the books. Instead of the high shelves of the old stack rooms these accessible racks bring any book within reach of the li-brarian. Mrs. Goodwin has charge of this department and the years of pre-

vious experience, together with her ex-tended knowledge of books, render her a very valuable person for the position, House cleaning is the order of the

House cleaning is the order of the day in the handsome apartment of the Sorosis society. The young ladies have reorganized and are setting their house in order generally.

Miss Ella Maughan, former assistant of her father, Secy. Maughan of the college, has been engaged to teach in the typewriting department and will devote the remainder of her time in studies. Miss McAllister succeeds Miss Maughan in the secretary's office.

studies. Miss McAllister succeeds Miss Maughan in the secretary's office.
Miss Moench, director of physical cut, ture, has contributed eight volumes of study along her lines of the library.
Mrs. Prof. Ostlen has been engaged to assist Prof. Engle in the department of history. The lady has had good experience in the schoolroom.

Prof. Upham of the department of English made his debut before the student body in chapel Tuesday morning.

dent body in chapel Tuesday morning in a very neat talk on what college life should mean to a student. The committee on literary societies met Saturday and arranged for a reorganization of the clubs and societies of the institution. There will be probably six organizations effected

The class in commercial law are pro-ceeding to organize as a club for work along legal lines. This class repre-sents some of the very best material

in the institution.

panied by some students of their classes, are in attendance at the fair, and will inspect the experiment drainage being carried on by the sta-tion in Salt Lake valley.

Prof. Burchell made a capital talk to the students in chapel this morn-ing on "character." This was the pro-fessor's first address to the general as.

sembly.

The matter of giving a reception to the students by the faculty members is in the hands of a committee for arrangement of details. The affair will be on an elaborate scale. There will be

COUNCIL OF WOMEN. Interesting Talks Made at Afternoon Session Yesterday.

The State Council of Women held its afternoon session yesterday at the Lion house, as the Assembly hall, where they were to have met, was occupied by the irrigation congress. Interesting talks were made by C. W. Penrose, Mrs. Ellen Jakeman of Provo, Mrs. John McVicker, Mrs. E. E. Day of Sanpete, and Mrs. Melton, the topics discussed being chiefly the right use of the franchise by women possess-ing it, the power that their use of the ballot might wield in the suppression of evils that undermine the morals of the young, and the pernicious influence of the reading of sensational newspaper

Mrs. Kate Bridewell Anderson gave a beautiful rendition of "The Wood-pecker," and the young ladies quartet of the Twenty-first ward also favored

the audience with a song.

In the evening a reception was held at the home of the president, Mrs. F. S. Richards, and a delightful time spent by those present.
